WELCOME to the Compro Systems Update News!

This is the first issue of Compro's Systems Update News (S.U.N.), designed to keep customers up to date with the latest about hardware and software releases, Real Time, Simulation, and Services products. We'll also include announcements about our customers' successes using Compro products and services.

As always, please let us know how we're doing, and how Compro can deliver an *Intelligent Solution* for your project or program.

• These updates provide important compatibility, performance and stability improvements, and are highly recommended.

Compro GPIO-HSD Firmware Update Available

The GPIO-HSD (part number 160-113462-001) has been updated to revision "R" to address inconsistent "set interrupt_event" while generating an interrupt to LCRS.

To obtain your updates, please contact Mr. Scott Means (smeans@compro.net) with the items you require.

If your support contract has lapsed, or are otherwise interested in obtaining these updates, please email sales@compro.net for additional information.
