COMPRO Awarded AM-X Simulation Support Contract with Italian Air Force

Contract upgrades Operational and Logistics Capabilities for the Italian Air Force's AM-X Tactical Procedures Trainer (TPT).

Melbourne, FL (February 29, 2008) – COMPRO, a global supplier of highly deterministic, real-time computers and simulation systems, announced today that it has been awarded a contract with the Italian Air Force (IAF) to modernize the IAF's AM-X fighter-bomber Tactical Procedures Trainer (TPT) Flight Training Device. The contract is valued at US\$2M.

Under this contract, COMPRO will perform hardware upgrade modifications to the AM-X fighter-bomber Tactical Task/Flight Training Device. The cockpit instruments and displays, Instructor Operator Station (IOS), and various on-board systems and interfaces will be enhanced. Software modifications will be performed on numerous systems, controls, and display subsystems. The entire visual system database will also be upgraded.

"We are proud to be involved in this very important defense program upgrade for one of our key allies," says COMPRO President, Constance Beck. "Every member of the COMPRO team strives to ensure that the Italian Air Force's pilot training program remains 'world-class'."

About COMPRO

COMPRO and its worldwide affiliate Encore companies are providers of mission-critical defense and commercial simulation, data acquisition, and process control solutions. COMPRO is a turnkey provider of flight simulation products and services, and offers a wide range of simulation product solutions for military and commercial customers ranging from Flight Training Devices to classroom learning systems. COMPRO products include MUSE™, an innovative simulation software suite with a state-of-the-art Graphical User Interface (GUI) Toolkit, SimBright™ Visual solutions, and Real-Time clustering for imaging, data acquisition, air space/battlefield management, and flight simulation applications. COMPRO and its affiliates provide COTS migration solutions, support services, and full logistics support for Encore, Gould, SEL, SGI®, HP®, and Sun® systems.

COMPRO was established in 1985. The company is a direct supplier to customers with mission-critical needs and a technology supplier to OEMs and Systems Integrators. Over 10,000 COMPRO systems service a world-wide base of 3,000 customers with over \$1.5B of installed products. COMPRO's North American operations are headquartered in Melbourne, Florida and Denver, Colorado. Global locations include Brazil, UK, Italy, Spain, France, Germany, Belgium and Japan.
